

New Water Conservation Rebates Available

Rebates now available for:

Dual Flush or Pressure Assist Toilets, and Waterless Urinals.
Hot Water Re-circulators, and Efficient Washing Machines.
Turf Removal.

Reduce Your Water Bill While Saving on Fixture Cost.

The Water Conservation Rebate Program works to enhance water use efficiency of Flagstaff water customers. Installing water efficient fixtures and low water plants will help reduce your water bill, in addition to saving valuable drinking water supplies. All fixtures are available in a wide range of colors and styles from local plumbing supply stores and through licensed plumbers. Researching the cost and performance of the various designs before you buy will help you obtain a fixture that meets your needs.

\$100 Rebates for High Efficiency Toilets.

The City of Flagstaff Utilities Department is pleased to announce changes to the Efficient Toilet Rebate Program. As of July 1, 2005, Flagstaff water customers are eligible to receive rebates of \$100 for the purchase and installation of qualifying dual flush and pressure assist toilets. \$100 rebates will continue to be available for waterless urinals. Rebates are no longer issued for standard 1.6 gallon per flush toilets.

\$100 Rebates for Efficient Washing Machines and Hot Water Re-Circulators.

Flagstaff water customers are now eligible to receive rebates of \$100 toward the purchase and installation of qualifying washing machines and hot water re-circulators. Eligible washing machines must meet Tier 2 criteria as established by the Consortium for Energy Efficiency. Eligible hot water re-circulators must operate by timer or switch.

\$500 Rebates for Turf Removal and Xeriscape.

Flagstaff water customers are now eligible to receive rebates of \$500 for replacing turf with low water landscapes. Participants must remove a minimum of 1500 ft² of existing turf and comply with additional criteria based on Xeriscape principals. Turf reduction rebates are limited to one rebate per address. For complete details contact the Flagstaff Water Conservation Office at 928-779-7685 ext. 4827.

Qualification Guidelines.

- Applicants must be Flagstaff water customers.
- The applicant must provide an original sales receipt for the purchase of each fixture.
- All fixture replacements are subject to inspection by Utilities personnel.
- Customers may receive up to four rebates on fixtures per year.

For More Information, please call (928) 779-7685 ext. 4827
